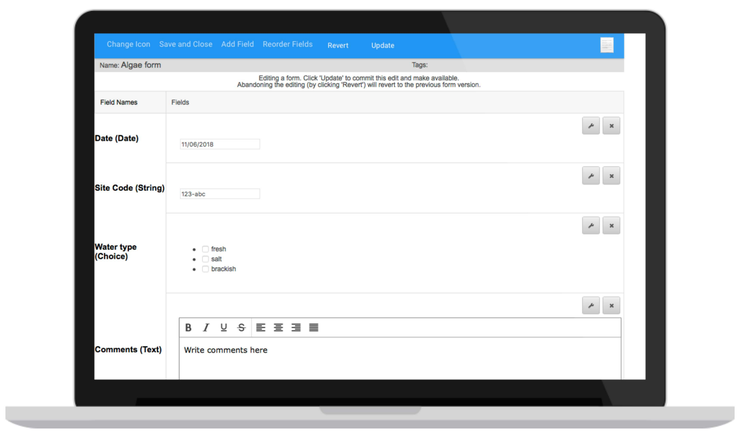
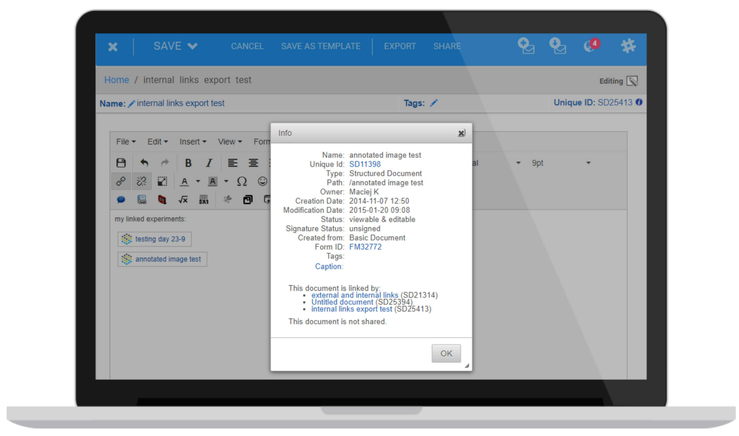
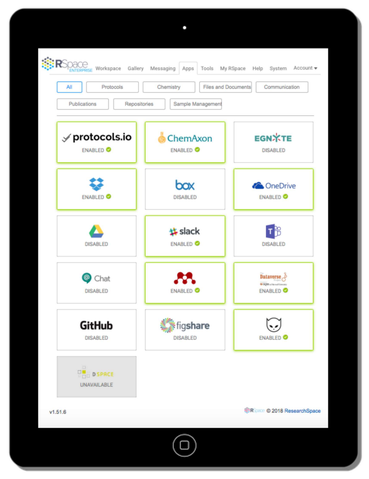
Increasing FAIR Data Capture Through ELN – Repository Integration

'Connected' ELNs like RSpace enable...





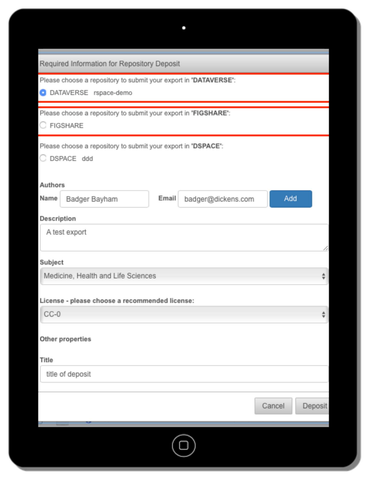


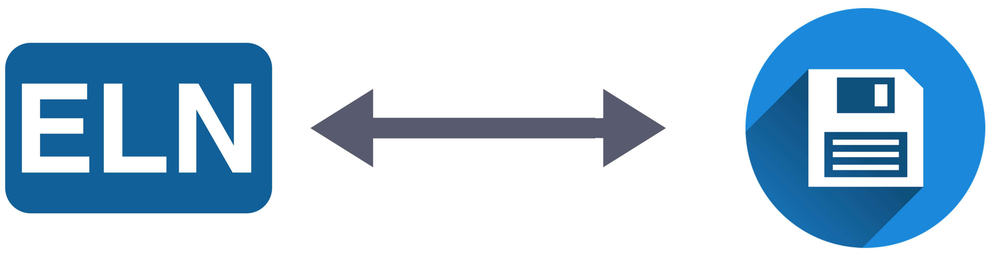
addition of structure to data,

capture of relationships between documents,

and links to data in other tools and resources.

Connected ELNs also support direct deposit of data into repositories.





Needed next are APIs to enable data structures created in ELNs to be carried over to repositories.

Organizations working on this include:

UNIVERSITY OF CAMBRIDGE

MENDELEY DATA

University of California CDL California Digital Library

The Dataverse Project

jupyter

GEORG-AUGUST-UNIVERSITÄT GÖTTINGEN

RSpace
